Upholstered seats incorporate CARB-compliant plywood and flexible webbing with 1 1/2" of CFC-free polyurethane foam. Steel frames consist of a combination of 3/4" x 1" and 1" x 1" tubes, all 16-gauge.</p> <p><b>Glides</b> Black plastic glides are standard.</p> <p><b>Wood Finishes</b> The beauty of wood consists of its being a product of nature. As such, exposed wood surfaces will not offer the same consistency as man-made materials. Some variation in color, grain, and texture are to be expected, even within the same order. Another consideration is that wood components will tend to darken over time, exaggerating slightly naturally occurring differences. Chairs ordered at different times are likely to be less similar than those ordered together. Therefore, Stylex will not guarantee a precise match of color, grain, or texture of its wood components.</p>
