

STYLEX

Model: Share with Privacy Panel

*Refer to P.2 for model variations

Tools Required

safety glasses
phillips screwdriver
vice grips

Breakdown Steps

1. Turn the chair on its side to reveal the steel brackets holding the privacy panel in place. Start by using a phillips head screwdriver to remove the brackets (figure A1). Use a screw driver to remove all of the brackets attached to the panel.

2. After the bottom brackets are removed, slide the back board upward to unhook it from the brackets hidden between the backboard and the back of the chair.

3. Use a socket wrench to unscrew the nuts holding the back rest to the seat from underneath the chair. Use a screw driver to remove the legs from the chair. The leg glides can be unscrewed from the bottom of the leg. This can be done by hand or with the assistance of vice grips (figure C2).

4. After removing the nuts, the seat back can be lifted from the chair. This also releases the long (previously hidden) brackets.

Disassembly and Recycling Document

Disassembly Time: 10min / No Special Training Required

- Seat Back
- Material:
Foam, plywood, upholstery

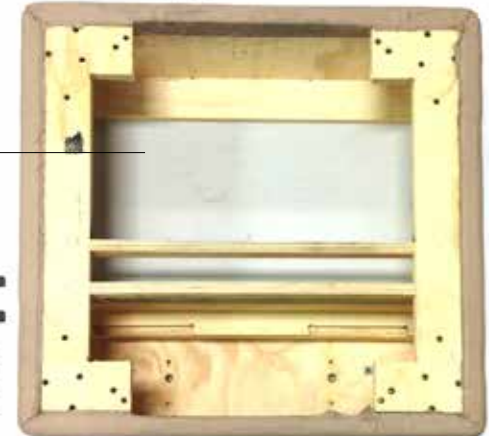

- Large and Small brackets x4
-Material: Steel

- Privacy panel bottom bracket x2
-Material: Steel

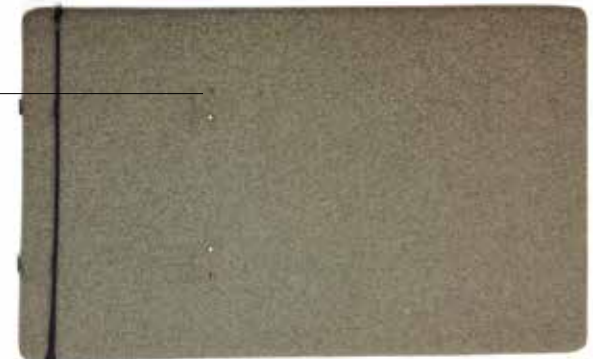

- Phillips round-head (1/4 20 bolt) x8
- Material: Steel

- Seat
- Material:
Foam, plywood, upholstery

- Leg glides
- Material: Plastic HDPE

- Privacy panel
- Material:
Foam, plywood, upholstery

-Washers and nuts x4
-Material: Steel

-Legs x4
-Material: Cast aluminum

- Phillips round-head (1/4 20 bolt) x12
-Material: Steel

Chair Variations

Share

Available in both task and lounge height seating surfaces as well as 2 different degreed corner pieces and a plethora of attachments, the Share chair is designed to be customized.

- Orientation using 90 degree corner pieces and a high kneewall (figure A1).
- Orientation using 120 degree corner pieces and a low kneewall (figure A2).
- Orientation using privacy screen (figure A3).
- Orientation using endcaps (figure A4)
- Orientation using benches (figure A5)
- Cube (figure A6)

Full list of parts include

- Chairs
- Benches (chairs with no kneewall)
- Corner units
- End Caps
- Cubes
- Knee Walls – High and Low
- Privacy Screens

Disassembly for all of these versions is fairly similar to the original. Please use P1 as a disassembly reference for all of these variations.
