A quick guide to pre-approved and pre-tested Luna Textiles ready for use on a variety of Stylex Seating offerings.
About
Luna Textiles

Passion defines us as a textile studio; it drives us to create inspirational textiles for the built environment. Committed to excellence, we design with purpose and we focus our expertise on bringing unique textiles to life.

Luna textiles was founded in San Francisco in 1994. Beginning from a passionate spark for design, Luna strives to bring new style to commercial interiors. Our textiles are designed for the commercial, hospitality, healthcare, education, and residential markets.

We offer a complete range of textiles for use in upholstery, panel, drapery, and wall covering applications. With a concern for the well-being of those who inhabit or interact with our products, we select intentional materials with content that ranges from wool and cotton to recycled polyester and nylon. Environmental sustainability is a priority for Luna. Our high-quality products are often times made from natural, recycled, or rapidly renewable fibers.

The creativity and ingenuity that shaped Luna’s beginnings, continue today. As our company grows, we continue to seek out passion for creating aesthetically timeless textiles and provide a thoughtfully curated collection we hope provides practical and inspiring products.
