Upholstered models use high-density CFC-free polyurethane foam. Frames are metal tube with cast aluminum arms and back brackets.</p> <p>Stacking Four leg models stack six high on the floor and nine high on the Welcome transport dolly.</p> <p>Glides Black plastic glides are standard.</p> <p>Ganging Bracket Option Arm models feature optional plated wire-formed brackets that are stackable.</p> <p>Wood Finishes The beauty of wood consists of its being a product of nature. As such, exposed wood surfaces will not offer the same consistency as man-made materials. Some variation in color, grain, and texture are to be expected, even within the same order. Another consideration is that wood components will tend to darken over time, exaggerating slightly naturally occurring differences. Chairs ordered at different times are likely to be less similar than those ordered together. Therefore, Stylex will not guarantee a precise match of color, grain, or texture of its wood components.</p>
<p>Arm Choice</p> <p>A. Overall Width</p> <p>B. Distance Between Arms</p> <p>C.
